## About This Game

Pyramaze: The Game is a 2D hack and slash platformer.

The Game was created to honor the great music from Pyramaze the Progressive-Power-Metal-Band.

You can choose a character out of 5 bandmembers to fight your way through evil foes taken from the Pyramaze-Lore like Ghosts, Will-o'-the-wisp or the Phoenix.

- Play as Jacob to use his Guitar-Magic-Staff to summon Fire, Ice and Thunder or Teleport through the enemies
- Play as Jonah to use his Keytar-Blade to Strike and Slash through the enemy-hordes
- Play as Morten to use his Drumstick-Spear to fill the screen with mighty water attacks
- Play as Terje to use his Microphone-Hammer to create powerfull schockwaves
- Play as Toke to use his Guitar-Axe to burn the Evil with his Fire abilities.

Move your character to the right of the screen and defeat as many enemies as you can to get Pyrapoints.

If you reach the far right of a map you will transition to the next map.

There are a total of 6 stages and 2 Bosses, every Stage gives you a timer of 300 seconds. You take to long? You lose!  
Your goal is to get the most Pyrapoints to be in the Top 10 Highscore-List. Every Time you die or defeat the final Boss you will be able to submit your Highscore to compare yourself with other players.

It might be a good Idea to not just rush through the stages. Collect every Gold Coin, they will grant you a lot Pyrapoints. If your health is low search for the green Coins, they heal 1 Point of your healthbar.

The Menu is controlled by mouse and Left-Click. We suggest you check out the "How To Play" - Section in the Home-Menu.
